FUNAIR LAUNCHES NEW MODULAR BEACH COLLECTION

Leading Superyacht Inflatable manufacturer #FunAir will be launching two new products in their Beach Collection at Monaco Yacht Show 2021

Known for innovation, quality and ramping up the fun for superyacht owners and guests with their portfolio of custom and in-stock Yacht Slides, Climbing Walls, BigAir Blobs and many other fun yacht toys, #FunAir has also seen a huge increase in orders for their inflatable Beach Furniture in the last two years.

At this year's Monaco Yacht Show the team will be launching the Floating Shaded Lounger with its modular hub that allows crew to connect up to three double chaise loungers together to create a super comfortable, free floating, shaded island. The Floating Shaded Lounger can be enjoyed separately or connected as an island and is perfect for sandy beach days, floating in the shallows, free floating out at anchor or on deck with a sundowner.

As the only yacht toy manufacturer with in-water displays at the show you will be able to view three connected loungers on the water right outside the Captains and Crew Lounge portside of the Yacht Club on Quai Louis II.

FunAir will also be launching the Double Wave Lounger to complement the existing Wave furniture collection which was first launched at the Monaco Yacht show in 2019.

Visitors to the show will be able to sit back and relax on the double or single Wave Loungers that will be on display on the Captain and Crew Lounge Dock, and crew will be able to take a seat on the Wave Chairs which will be situated upstairs in the private crew lounge.

The #FunAir Beach Collection is ergonomically designed for maximum comfort using the world's most durable and lightweight materials. Luxuriously soft, customizable covers are available if you want to add an additional layer of comfort for guests.

Benefits for captains and crew include the ability to pack beach furniture to accommodate all guests into one tender trip to shore. The collection is purposely designed to be quick to set up and take down, and to folder tight and light, taking up very little space compared to wooden loungers.

Stews love the removable covers because the loungers stay protected from spills and the covers can be easily laundered ready for the next beach experience.
