

# Bow Slide

## RAPIDFLATE™

Patented Rapidflate inflates and deflates our slides 6x faster than traditional methods.

## INTEGRATED WATER DISTRIBUTION

Provides continuous water to keep the slide fast and wet via a simple water hose connection.

## INCREASE THE FUN

Ask about the optional Kicker Ramp

## DYNEEMA RING OPTION

Our lightest and strongest rings can replace stainless, reduce weight, and are kinder to paintwork.

## ULTRA SLICK VINYL

Eliminates coversheet which reduces weight, pack size, and areas that could trap water to cause mould.

Designed for yachts wanting maximum fun with minimal fuss. The FunAir Bow Slide delivers a fast, exciting ride from the bow in a 4-6.5m format, making smart use of unused space and proving especially popular on sailing yachts where guest fun stays clear of working areas.
