

Curved Slide

DYNEEMA RING OPTION

Our lightest and strongest rings can replace stainless, reduce weight, and are kinder to paintwork.

RAPIDFLATE™

Patented Rapidflate inflates and deflates our slides 6x faster than traditional methods.

INTEGRATED WATER DISTRIBUTION

Provides continuous water to keep the slide fast and wet via a simple water hose connection.

ULTRA SLICK VINYL

Eliminates coversheet which reduces weight, pack size, and areas that could trap water to cause mould.

LEG SUPPORT

Added leg support for stability.

INCREASE THE FUN

Ask about the optional Kicker Ramp

Designed for taller yachts wanting a real showstopper. The FunAir Curved Slide delivers a dramatic, high-energy ride in a fully customised 3-10m design, using its iconic curve to launch riders towards the stern for an unforgettable guest experience.
