

# Stern Slide

## RAPIDFLATE™

Patented Rapidflate inflates and deflates our slides 6x faster than traditional methods.

## INTEGRATED WATER DISTRIBUTION

Provides continuous water to keep the slide fast and wet via a simple water hose connection.

## ULTRA SLICK VINYL

Eliminates coversheet which reduces weight, pack size, and areas that could trap water to cause mould.

## DYNEEMA RING OPTION

Our lightest and strongest rings can replace stainless, reduce weight, and are kinder to paintwork.

## INCREASE THE FUN

Ask about the optional Kicker Ramp

Designed for yachts that prefer slide exits close to the swim platform. The FunAir Stern Slide delivers a fast, exciting ride from the stern in a 4-6.5m format, and is our lightest, fastest, and easiest yacht slide to deploy.
