

BigAir Blob

FITTED CRADLE

Fitted cradle that holds blob perpendicular to yacht and adjusts to push blob away from the hull.

OUTRIGGERS

Stabilization outriggers to keep blob from rolling in swell.

RAPIDFLATE™

Patented RapidFlate for 6x faster inflation and deflation.

The FunAir BigAir blob is an exhilarating, hair-raising flying through the air experience that will leave you breathless. Purposely engineered for yachts, this blob has side stabilizing outriggers to handle ocean waves and a fitted cradle to keep the blob safely positioned away from the edge of the boat.
