

# FunSize Slide

## INTEGRATED WATER DISTRIBUTION

Provides continuous water to keep the slide fast and wet via a simple water hose connection.

## ULTRA SLICK VINYL

Eliminates coversheet which reduces weight, pack size, and areas that could trap water and cause mould.

## DYNEEMA RING OPTION

Our lightest and strongest rings can replace stainless, reduce weight, and are kinder to paintwork.

## SUPER COMPACT DESIGN

Offers a simple way to pack and store when space is limited.

Designed with yachts up to 20m in mind. Super easy to deploy and return with just one pair of hands, this little beauty inflates and deflates in under 15 minutes.
