

Super Sweet Slide

EASILY CONNECTABLE

Link multiple slides together in seconds using the patent-pending connection sleeve. Create slides of any length for maximum thrills and extended play.

ULTRA-SLICK SURFACE

So slippery you only need water. No soaps required that burn eyes or damage grass. The high-gloss finish delivers consistent speed and performance all summer long.

BUILT-IN WATER SPRAYER

Integrated sprayer maintains the ultimate slickness throughout the day. No need for manual watering or additional equipment.

INFLATABLE SIDE BUMPERS

Keep riders safely centred on the slide and away from ground stakes. Side bumpers also retain water on the sliding surface for optimal conditions.

The FunAir Super Sweet Slide is an ultra-slick, commercial grade lawn slide designed for maximum fun. Connect multiple slides together to create the ultimate backyard or camp experience. Built to last for many summers of fast, exhilarating rides.

MATERIAL SPECS

Commercial grade 1000 denier PVC with FR and UV ratings. High gloss, 0.55mm, 1000 denier super slick sliding surface.
